

## ADVANTAGES

- Easy-to-remove dust drawers
- Toolless cam-lock cartridge removal
- Built-in safety monitoring filter
- Plug & Play
- Integrated spark trap

<b>Application</b>	Indoor applications, especially where noise and/or space constraints are a concern Recirculation of air back into facility for non-hazardous dusts
<b>Installation Options</b>	The plug & play design allows you to move the equipment around in case you have to relocate your process machinery.
<b>Comment</b>	Options: The Gold Series Mini has optional inlet configurations to accommodate different types of dust. In lieu of the dust drawers, the unit may be ordered with an optional dust hopper and leg support structure for discharging dust into a 55-gallon (208 l) drum or another disposal device.  Additional options: explosion venting, aluminum and stainless steel flex ducts, a spark-resistant flex hose, HEPA filter upgrade for the safety monitoring filter and outlet weather cover.

Whether you need a small dust collector or mini fume collector for your business, the Gold Series GS4M delivers high performance. It incorporates the best features of the Gold Series into a compact and competitively priced unit.

Featuring an easy-opening cam-lock door for maintenance-friendly filter access, the entire unit is constructed from 10 gauge steel and is powder coated inside and out for corrosion resistance.

3 HP, 1,000 CFM at 9" w.c. or 2,000 CFM at 5" w.c.

Automatic, reverse pulse cleaning systems for long cartridge life, prewired to an on-demand pressure control panel

Flame-retardant filter cartridges

Built-in spark trap inlet to protect cartridges

Easy-to-remove aluminum drawers

Toolless cam-lock cartridge removal

Built-in safety monitoring filter

The collector's extremely quiet performance and small footprint make it ideal for indoor applications, especially where noise and/or space constraints are a concern.
